'Twixt Love and Money

The pleasure loving portion of the community have a treat in store for them next Saturday night when "Twixt Love and Money" will be produced at the Alhambra. The following young people will compose the cast:

Mrs. F. H. Thorpe, Mrs. E. Turner, Miss Jessie Turner, W. A. Shrewsbury, Hjalmar Holmquist, Otto Offermann, Emil Kaleschki, Melvin Turner, Walter Nobs, Harry Moore, Ralph Dodge. Prompter Mrs. R. Brown, scenic artist, J. E. Van Court.

The scene is laid on the coast of Main and at Newport, and the simple faith and honesty of the plain fisher fol are brought in strong contrast with the artificial lives and intrigues of society people. The fisher people prove easy dupes when manipulated by the shrewd and quick witted villein, Julien Hawke, and the brazen-nerved promoter, Jimnel Briggs, but kind providence steps in and all ends well for the simple folks with honest hearts.

The derelict lying at Chamberlain's wharf is being broken up, that being the only way to remove her from where she has been imbedded in the mud for over a year. At one time no prouder crew ever trod a deck that that of the "Flirt" for she carried the champion flag of the bay, having beaten every boat which she raced. She was one of the finest and even now as she is being chopped up her breadth of beam with roomy cabin and fine speed lines are worth looking at

CATARACT OF THE EYE.

How the One It Attacks May Watch the Obstruction Grow.

Cataract is said to be due to the gradual deposition of oxalate of lime in the substance of the crystalline lens, at first in small spots or streaks, sometimes in one part and sometimes in another. The deposit gradually increases until it penetrates the whole of the lens, causing blindness. The remedy, then, is to remove the lens, and after its removal the patient needs a substitute in the form of highly magnifying spectacles.

All that is necessary to enable a patient to see his own cataract for himself is a piece of card and a needle. A visiting card will do very well. Pierce a clean round hole near the middle of the card and hold the card up to the light close to the eye, looking preferably in the direction of a piece of blue sky. With the card near to the eye the patient will not see the small hole pierced by the needle, but he will see a comparatively large, faintly illuminated field with his cataract projected upon it. He is, in fact, observing the shadow cast by his cataract on the retina at the back of his eye. With a small puncture in the card the shadow so thrown is comparatively sharp. But with a normal eye an evenly illuminated field or clean disk will be seen. The patient may thus map down his own cataract and settle for himself whether it is extending and whether he will have an operation or not.

SKILL OF THE ANCIENTS.

The Old Timers Apparently Did Many Things Better Than We.

"We are losing all our secrets in this shabby age," an architect said. "If we keep on, the time will come when we'll be able to do nothing well.

"Take, for instance, steel. We claim to make good steel, yet the blades the Saracens turned out hundreds of years ago would cut one of our own blades in two like butter.

"Take ink. Our modern ink fades in five or ten years to rust color, yet the ink of mediaeval manuscripts is as black and bright today as it was 700 years ago.

"Take dyes. The beautiful blues and reds and greens of antique oriental rugs have all been lost, while in Egyptian tombs we find fabrics dyed thousands of years ago that remain today brighter and purer in hue than any of our modern fabrics.

"Take my specialty, buildings. We can't build as the ancients did. The secret of their mortar and cement is lost to us. Their mortar and cement were actually harder and more durable than the stones they bound together, whereas ours—horrors!"—New York Press.

Presence of Mind.

The Duke of Wellington was writing in his library when, chancing to look up, he saw a stranger near him who had entered unheard.

"Who are you, and what do you want?" asked the duke.

"I am Apollyon and have been sent to kill you."

The nobleman realized that he had an insane person to deal with, but he was equal to the emergency. With the utmost carelessness he inquired, "Got to do it tonight?"

"No."

"I am very glad, as I am quite busy now. Just send me word before you come again, and I shall be ready for you," politely bowing the crazy person out of the room.

Shortly the fellow was safe in the bedlam whence he had managed to escape.

SUPERVISORS IN SESSION

Incorporation Matters Discussed

The supervisors met in regular session Monday. All members were present.

The Halfmoon Bay Land Company presented a map of Ocean Villa tract and same was accepted on motion of Debenedetti seconded by MacBain.

C. Eskilson was granted permission to lay a 3-4 inch pipe for 80 feet along 4th avenue at the Homestead, near San Mateo.

Erroneous assessments were ordered cancelled as follows: lots 1 and 4, block 3, lots 14 block 5, Miramontez tract and lot in Homestead and on personal property of Charles Luscher.

A letter was read from W. H. Cobb, secretary of the State Commission of certificates of tittle notifying the board that the new books for real estate transfers and titles were ready for delivery. The letter was ordered filed.

This being the time set for hearing the petition for the incorporattion of South San Francisco, the following protest was read from the Spring Valley Water Company:

To the Honorable Board of Supervisors of San Mateo County, Redwood City Cal.

Spring Valley Water Company hereby respectfully protests against the inclusion of its and the surrounding area of land within the proposed district of South San Francisco which it is proposed to incorporate into a municipality.

This property and the adjacent tract of land, in fact all of that vast area lynig to the east and south of the present town of South San Francisco which it is sought to municipalize, is uninhabited and virtually unoccupied save by three or 4 manufacturing establishments, and between them and said town is a large tract of land wholly uninhabited No portion of this land forms any part of the town of South San Francisco, and protestant respectfully submits that it should not be included within its boundaries.

Dated, San Francisco, May 28, 1908.

SPRING VALLEY WATER CO.

Other protests were read from the Steiger Terra Cotta Works, the Pacific Jupiter Steel Works all protests were ordered filed. Mr. Kempkey, president of the Steel Company was present and said the time the company had established their plant at South City, it had been informed that there would be no attempt made to incorporate as a city, and high taxation would thus be avoided. In answer to Cunningham's taunt that the fight against incorporation was in the interest of capital and against the poorer homeseeker. Mr. Kempkey said that of the 170 stock holders, the majority were working men. That the company was started by promoters who induced many laboring people to invest some of them being employed in the works. So this was not a rich company.

W. J. Martin stoutly maintained that no promise was made by the Land Company that the town would not incorporate. That rested with the people and the Land Company had no control over such a matter.

Mr. Knight's contention was to prevent any opportunity being given for the establishment of a smelter in the new city and to do this he desired to exclude any possible site for same from within the boundaries proposed.

E. E. Cunningham said the people had the right to incorporate providing they had the requisite number of residents and complied with the law in all respectts. There was no power to stop them. He declared emphatically that the people of South San Francisco were not interested in smelters, butt in good streets, sewers and street lights.

Knight again warned the Board to act with consideration as this would be their last chance to act. After incorporation they would have no further control. The chairman also admonished the board to act wisely in the matter before them.

H. W. Brown requested that the board singify its intentions regarding what the final course would be.

At this point Eikerenkotter moved that the boundary lines be so fixed as to exclude Tanforan Park, Fifth Addition to San Bruno Park and the smelter site. The motion was seconded by Debendeetti. This did not please Knight as he wanted all the hills in the neighborhood of the smelter site upon which a smoke stack could be maintained excluded. MacBain made an amendment to said motion that the hills be excluded, but the amendment failed of a second. After considerable wrangling supervisor Blackburn jumped to his feet and said he held the key to the situation, as he held the deciding vote, and at last he lost patience and told the contesting parties to come to some sort of an understanding or her would refuse to vote and tie the whole matter up. Acting upon his advice, the Surveyor was called in and advised by the board of its general idea of where the lines should be and left their exact location to be settled by W. J. Martin, representing the incorporators, and Attorney Samuel Knight, representing the Home Protective Association. The report of the Surveyor to be in the hands of the board at its next regular meeting, July 6.

J. McCarthy of Millbrae, who was ordered to appear before the board to show cause why his wholesale liquor license should not be revoked, failed to appear and was granted two weeks further time.

On motion of MacBain seconded by Eikerenkotter the clerk was authorized to advertise for bids for constructing a steel concrete bridge on the main Woodside and Searsville road over Alembipue creek, near Searsville Lake.

The clerk was also directed to advertise for bids for the construction of a wooden truss bridge to be erected over a small creek on the La Honda and Pescadero road to replace what is known as the "Batty Thompson bridge".

The County Surveyor presented an estimate of repairs on the McMahon bridge and a bridge at the new landing at Halfmoon Bay. He estimated the entire cost at $405. The chairman directed the supervisor to do the repairs by days work.

Architect Glenn Allen presented specifications for the stone work in the new court house and same were adopted on motion of Eikerenkotter seconded by MacBan. The clerk was directed to advertise for bids and same will be opened at the meeting to be held on July 20th. The clerk was also instructed to advertise for bids inviting estimates for the sheet metal cornice to be erected on the new courthouse. The bids will be opened on July 20th.

This being the day fixed by law for the election of members of the board of education and there being two vacancies to fill, Blackburn nominated Miss Emily Leighton, Debenedetti named Pro. Wall and Coleman nominated Geo. W. Hall. On the first ballot Miss Leighton received 4 votes, Hall and Wall 3 votes each. The former was declared elected. On a second ballot being taken Wall got 2 votes and Geo. W. Hall 3 vtoes. The latted was declared elected.

Woodside Chips

There are quite a number of cases of measles in town but it seems to be only a mild form. It is a good thing we do not live in San Francisco

Mrs. Bert Barteau of San Mateo was a visitor at the home of her mother the past week.

A number of the sporting element from here attended the Chamareta at Santa Clara last Sunday. This town always has a celebration of its own and every effort is made to observe the day.

Miss Hilda Dalve spent a few days in the metropolis the first of the week, the guest of her friends and relatives.

The blackberry season is at hand and many are taking advntage of it. Owing to lack of spring rains there are very few this year.

Mrs. T. Miller is having her cottage next to her home repainted.

The dance tomorrow evening given by the young men of Woodside promises to be well attended. Those in charge will see that every one has a good time and are making every arrangement to that effect. Do not forget to bring your girl and make no other date.

Wedding Bells

Wedding bells will ring out in good old fashion de next week. On Wednesday O. M. Carrington, professor of music in the high school, will be married to Miss Alma Nobs at the home of the bride's to-be-parents. On Saturday next Leslie Johnston a prominent young attorney of Santa Cruz, and only son of Mr. and Mrs Johnston of this city, will be united in marriage to Miss Fedella Knight, a prominent young lady of Redwood City. Mr. Johnston has provided a beautiful home for his bride at the Surf City. He has a growing practice and his future appears bright in that city.

Mr. Johnston and bride will spend their honey moon at Lake Tahoe.

Mr. Carrington and wife will go to Santa Cruz for a week and then return to Pacifc Grove where they will stay for a month as the guests of the former's parents. While there Mr. Carrington will take a course in drawing to perfect himself along that line. He will teach drawing in the high school and grammar school next semester.

DOINGS IN THE SUPERIOR COURT

Mrs. Bullock's Will to Be Contested

Carmelita Burt Kendall, oldest daughter of the late Isabella Bullock, has filed a contest against the admission of her mother's will to probate. The terms of the will expressly mentioned that she should not receive any portion of her mother's estate. The usual statutory grounds are used as the basis for the contest. J. J. Bullock was bequeathed the bulk of the estate. P. F. Dunne, Martin Stevens, a brother-in-law of the contestant, and Archer Kincaid are the attorneys for Mrs. Kendall.

Bequests Not Satisfactory

A will contest has been begun in the superior court of Santa Clara caunty that will be of interest to the people of this county as the parties to the contest were former residents of Belmnot and San Mateo.

Mrs. Alma Bollinger, the granddaughter of Hannibal Pullan, has begun a contest of his will, which was made on April 30, 1907, and by means of which he disposed of all of his property, a matter of about $12,000. The granddaughter was completely ignored by the old gentleman and charges as the cause of this that he was induced by his son George to make this provision. Four or five witnesses were called by the contestants of the will to establish their claim and this morning rested their caes. Testimony was begun this aftrnoon by the proponents to establish the fact that the old man was of sound mind and was not acting under any outside influence when he made disposition of his property. After but brief testimony was offered to support this contention, the matter was submitted without argument, and Judge Hyland delivered his opinion from the bench in favor of the proponents of the will. George Pullan, was, according to his petition made executor. The proponents were represented by S. B. Archer and T. A. Coogan.
